

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: David Kaufman
DOCKET NO.: 03-24625.001-R-1
PARCEL NO.: 14-29-309-029-0000

The parties of record before the Property Tax Appeal Board are David Kaufman, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 117-year old, two-story frame and masonry multi-family dwelling containing 2,548 square feet of living area with a partial, finished basement with an apartment and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, the comparables are located approximately one-half mile from the subject. According to the appellant's grid analysis, the comparables are two-story or three-story frame and masonry dwellings that are 108 to 120 years old. One of the four comparables has an unfinished basement; one has a partial basement; and two do not have a basement. Information on garages was not disclosed. The comparables contain 2,200 to 3,000 square feet of living area and have improvement assessments of \$12.10 to \$14.85 per square foot. The subject property has an improvement assessment of \$21.84 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties that are located two to three

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	11,928
IMPR.:	\$	55,653
TOTAL:	\$	67,581

Subject only to the State multiplier as applicable.

blocks from the subject property. The comparable properties consist of two-story frame and masonry or masonry multi-family dwellings that are 85 to 120 years old. Two of the comparables have full, unfinished basements, and two do not have basements. Three of the comparables have two-car garages, and one comparable has a fireplace. The dwellings contain 1,584 to 2,008 square feet of living area and have improvement assessments of \$21.96 to \$25.60 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables differed significantly in location, and comparables three and four also differed in foundation and size from the subject. As a result, the appellant's comparables received reduced weight in the Board's analysis. The board of review's comparables two and three also differed in foundation from the subject, and comparables two and four differed in size. These comparables also received reduced weight in the Board's analysis. The board of review's comparable one was the most similar to the subject in age, location, and physical characteristics. This comparable had an improvement assessment of \$22.60 per square foot and supports the subject's improvement assessment of \$21.84 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable property contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
